

Commercial Signage

Jarob, Inc. partnered with Miami University and Swath Design to fabricate, engineer and install various types of signage, graphics and wayfinding elements throughout the Oxford, Ohio campus.

- • Graphic disks mounted on columns at the football stadium are fabricated of 42" diameter Di-Bond, digitally printed with dynamic action photos from past football games.

- • Post-and-panel signs around the campus offer elegant yet utilitarian identification.

- • Three 30-foot mesh banners celebrating Miami's renowned football coaches of the past and present stretches 90 feet across the rear of the stadium's scoreboard.

- • Flag-mount identification signs attractively display building name, street address.

- • Informational kiosks offer a place to publicize campus-related activities and events.
